

“Yes! I Want To Find Out How I Can Cut My IT Costs By 30%- 50% And Guarantee That I’ll Never Have To Pay For Expensive Computer Problems Again!”

Please reserve one of the twelve FREE 27-Point Problem Prevention Audits in my name so I can understand how your Ultimate Peace of Mind Network Plan will help my company. I understand that I am under no obligation to do or to buy anything by requesting this free audit. At no charge, you will send a senior technician to my office to:

- Diagnose any on-going problems or concerns we have with our network.
- Make sure our data is being backed up properly and make sure our files CAN be recovered without damage or corruption in case of an emergency.
- Review our network configuration and printers to make sure we are getting the maximum performance and speed from these machines.
- Look for hidden viruses, spyware, and loopholes in our network security that could allow hackers and other cyber criminals to access our confidential information.
- Review our server file logs to look for looming problems or conflicts that can cause unexpected downtime.
